# The Climate Crisis

Student Webinar

107 attendees

**2/3** of Secondary attendees  
think **Net Zero 2050** isn't  
**achievable**

---

They feel that too many people -  
particularly in older generations - aren't  
willing to make the necessary changes.

Almost  
**60%**  
of Primary and Secondary

voted that recycling  
systems are  
**too complicated.**

---

They feel that more education and streamlined systems  
are key to getting more people recycling correctly.

**Two thirds of Secondary  
and over 95% of Primary**

**said they**

**feel worried**

**about Climate Change.**

They feel that lots  
people didn't fully  
understand the  
"magnitude" of the  
problem.

PLANET B

**But...**

Over  
**60%** of Secondary think it's  
**not too late**  
to change the damage we've done.

---

They feel money and effort from people  
worldwide is needed to make a difference.

**96%** of Primary attendees  
think children **can help**  
**protect the natural enviroment.**

---

If children can form good habits now, that will  
continue to help the enviroment into the future.

Over

90%

of Primary think  
understanding

the danger to animals

would encourage more young people to act.

# Solutions

Here's what our students feel  
would help the climate crisis:

# Education

Government

New laws

# Collaboration

Planting trees

Better  
recycling  
systems

# Big Businesses going Net Zero

More positivity about the work being done.

# Thank you

to our
